

GARDEN WASTE

| YES PLEASE ✓ | NO THANKS ✗ |
|--|--|
| Leaves and flowers | Invasive species such as Japanese Knotweed. For further guidance please click here (www.gov.uk/guidance/prevent-the-spread-of-harmful-invasive-and-non-native-plants). |
| Grass and weeds | Plastic bags and black sacks. |
| Tree bark and pruned branches | Any painted or treated wood. |
| Clippings and twigs | Soil and turf |
| Logs up to 30cm (12 inches) in diameter or 2m (79 inches) in length. | Stones, rubble, plant pots and bricks |
| Cut flowers and household plants | Animal/pet waste including faeces, bedding and litter. |
| | Logs exceeding 30cm (12 inches) in diameter or 2m (79 inches) in length. |
| | Food waste including fruit from your garden |
| | Any other non-garden waste including paper, card, textiles, plastics, metals and nappies (even if biodegradable). |

FOOD WASTE

Although other plastics are not permitted in food waste collections we do accept compostable bags with the seedling logo, (which means they conform with the relevant standard BS EN 13432). Your local council may supply compostable bags or alternatively they are widely available at most supermarkets, many hardware stores, and through online suppliers. We can only accept liners with the seedling logo, as these will break down during the composting process. If you don't wish to use liners, you can place your food waste loose into your food waste container for collection.
